

Computer OLYMPIAD

January 2022

TALENT SEARCH

Participation in the Talent Search is open to all school learners. For 2022, schools with adequate connectivity can take part online. Schools that lack internet access can use the pen-and-paper version of the same test which does not require the use of a computer at all.

The 2022 Talent Search will be offered at five levels in English and Afrikaans:

- Elementary (grade 5 and below)
- Junior (grades 6 and 7)
- Intermediate (grades 8 and 9)
- Senior (grades 10 and 11)
- Elite (grade 12 and above)

For the lower grades and for the grades 10 and 11 the Talent Search is an excellent opportunity to develop Computational Thinking. For the grade 9s it will help with subject choices for grade 10. For the grade 12s it will help with the choice of a career and further studies.

Rewards: Certificates are awarded to the participants with above average scores.

The names of top learners are forwarded to the Allan Gray Orbis Foundation so that qualifying learners can be considered for Allan Gray Scholarships.

Talent Search dates are 7-11 March 2022

Register at www.olympiad.org.za

APPLICATIONS OLYMPIAD

Julian Milner

Francois Pieterse

Jacques Amsel

Anais Herman

Alexander Brits

Thomas Kabalin

Finalists 2021

Inge Venter

Michaela van der Waag

Sydney Curwen

Jaedon Naidu

Ruan Schoeman

Dian van der Berg

Winner: Jaedon Naidu

2021 FINAL ROUND WINNERS

Award	Name	School
Gold	Jaedon Naidu	Eden College Durban
Silver	Alexander Brits	Michaelhouse
	Michaela van der Waag	Curro Langebaan
Bronze	Julian Milner	Die Hoërskool DF Malan
	Ruan Schoeman	Midrand Homeschool
Runners-up	Dian van der Berg	Hoërskool Rustenburg
	Jacques Amsel	Deutsche Intern. Schule Kapstadt
	Sydney Curwen	Pretoria Chinese School
	Anais Herman	Hoër Meisieskool Bloemhof
	Thomas Kabalin	Cannons Creek Independent School
	Francois Pieterse	Ferdinand Postma High
Inge Venter	Hoërskool Waterkloof
